

The underlayment OVERACHIEVER.

The best just got better. When it comes to underlayment, we've raised the bar. Set a whole new standard with Tolko ULAY Premium Underlayment. Each underlayment panel has a superior face and is backed by a ground-breaking transferable, 50-year limited warranty against delamination, discolouration and puncture.

Sure, it costs a little more. But when you're building that special project, you're creating a thing of beauty. Do it right with Tolko ULAY Premium Underlayment, and you'll know this floor will be absolutely amazing. Tolko ULAY Premium Underlayment offers superior performance under resilient flooring and ceramic tile floors. Ideal for the professional installer. It's the best underlayment product on the market today, from a company you know and trust.

- **Unparalleled performance:** Reduce tile cracking and popping. Engineered with waterproof exterior-grade glue for greater panel stability and strong premium grade core veneers to prevent punctures.
- **Outstanding surface:** Precision-sanded, extremely smooth panel face. Openings are filled with latex-based putty to provide a uniform panel surface. Ideal for use under resilient flooring or ceramic tile.
- **Easy installation:** Tolko's ink-jetted fastener guide facilitates speed and precision during installation. The panel face is marked every 2" around the panel edge and 4" in the inner field. Ensure the best quality finished floor; follow detailed storage, handling and installation instructions available at www.tolko.com.
- **Versatile and durable:** Thoroughly tested and customer-approved. Tolko ULAY Premium Underlayment is quality-assured by a third-party grading agency.
- **Warranted:** Tolko ULAY Premium Underlayment is backed by a transferable, 50-year limited warranty against delamination, puncture, bleed-through and discolouration of flooring. Details at www.tolko.com.

FOR PROJECTS THAT DESERVE THE BEST.

- 8.5mm

BUILD GREEN WITH TOLKO

- **Environmentally responsible:** Plywood is manufactured from logs averaging 25cm (10 inches) in diameter from managed, sustainable forests. One hundred percent of the log is used for veneer or chips for pulp and paper, and the bark is used for energy generation. Nothing is wasted.
- **New homes:** Use Tolko ULAY and T-Ply products in new home construction. You could be eligible for credit under popular green building programs.
- **Indoor air quality:** Manufactured with no added urea-formaldehyde (NAUF), exterior-grade adhesives.
