

The start of something GREAT.

Tolko T-Ply Pro Underlayment makes it easy for the professional installer or the home handyman to do the job right the first time. Whether you're laying resilient flooring or ceramic tile, your project will be off to a smooth start with Tolko T-Ply Pro Underlayment. Backed by more than 50 years of experience, we'll help you lay the groundwork for your flooring project.

- **Performance:** Stiff and stable for a floor that feels solid under foot.
- **Uniform surface:** Fully-sanded smooth face. Openings are filled with a latex-based putty to provide a uniform panel surface. Ideal for use under resilient flooring or ceramic tile.
- **Easy installation:** Tolko's ink-jetted fastener guide facilitates speed and precision during installation. The panel face is marked every 2" around the panel edge and 4" in the inner field. Ensure a high quality finished floor; follow detailed storage, handling and installation instructions available at www.tolko.com.
- **Versatile and durable:** Thoroughly tested and customer-approved. Tolko T-Ply Pro Underlayment is quality-assured by a third-party grading agency.
- **Improved packaging:** Tear-resistant woven-poly bag protects against moisture and contaminants during shipping.
- **Warranted:** Backed by Tolko's no-nonsense, transferable, 25-year warranty against delamination, bleed-through and discoloration of flooring. Details at www.tolko.com.

YOUR BEAUTIFUL FLOOR DESERVES A SMOOTH START.

BUILD GREEN WITH TOLKO

- **Environmentally responsible:** Plywood is manufactured from logs averaging 25cm (10 inches) in diameter from managed, sustainable forests. One hundred percent of the log is used for veneer or chips for pulp and paper, and the bark is used for energy generation. Nothing is wasted.
- **New homes:** Use Tolko T-Ply products in new home construction. You could be eligible for credit under popular green building programs.
- **Indoor air quality:** Manufactured with no added urea-formaldehyde (NAUF), exterior-grade adhesives.
