T-PLY PLYWOOD PRODUCTS

Tolko’s line of T-PLY Plywood products are preferred for the consistent core lines, superior surfaces, enhanced fastener holding strength and flatness of the panels. RV and transport trailer manufacturers value the precision and consistency of our panels which perform as expected every time. With T-PLY plywood, manufacturers are confident they have done it right the first time.

TOLKO PLV INDUSTRIALS

Tolko’s Parallel Laminated Veneer (PLV) is a structural, non-certified product designed to eliminate waste and improve substrate performance in a host of industrial applications. PLV and PLV-X are available in multiple thicknesses and comes in sheet form, ready to cut into your components. They have a high strength-to-weight ratio and excellent dimensional stability compared to other composite and solid wood products. Our PLV is made with a parallel orientation of veneers and our PLV-X includes perpendicular cross bands for enhanced fastener holding and stability. They are both made with Douglas-fir, Larch or Spruce Metriguard Rated Veneer and produced at our APA certified mills in British Columbia.

T-STRAND OSB PRODUCTS

We combined strength, moisture durability, and enhanced fastener holding to produce T-STRAND OSB products designed for the high demands of RV and transport trailer manufacturing.

Tolko T-STRAND OSB RV and Cargo Panels provide a proven solution for trailer manufacturers. We start with Canadian Aspen wood fibre to produce superior OSB products that are lighter, more durable, and built to work. The fibre is cut into strands and bonded with moisture resistant resins to optimize the collective strength and consistency of the panel. T-STRAND OSB panels are pressed with intense pressure and temperatures to create a panel with low moisture content and a resistance to warping, swelling, and flaking.

T-TEC OSB PREMIUM FLOORING

Tolko T-TEC OSB Premium Flooring is preferred by manufacturers for premium subfloor applications. Dual stamped with APA Sturd-I-Floor and Structural 1 certification, this strand-based composite wood panel boasts incomparable cross-panel stiffness and strength and is also suitable for roofing applications where required. T-TEC OSB Premium Flooring is engineered to outperform the industry’s most advanced flooring panels in nail retention, moisture resistance and durability. You can be confident in our T-TEC OSB Premium Flooring with a lifetime limited warranty and no-sand guarantee we always stand behind.

TOLKO LSL INDUSTRIALS

Tolko’s industrial line of LSL products provide a structural, non-certified solution for RV and transport trailer manufacturers. Our industrial LSL products are made at the same mill as our T-TEC LSL structurally-rated products with reduced density resulting in a lighter product suitable for RV and transport trailer components.

TOLKO

Tolko is a family-owned company differentiated by our service, people, and reliability. We are a strong wood products manufacturer with a solid reputation and over 60 years of experience. Founded in Lavington, BC, Tolko has grown to employ 3,000 people across British Columbia, Alberta and Saskatchewan. We manufacture lumber, plywood, veneer, OSB, EWP, biomass power, co-products and a growing number of specialty wood products for world markets.

TOLKO RELOAD LOCATIONS

We pride ourselves on being easy to do business with by searching for innovative solutions, identifying new opportunities, and investing in our customer relationships. Our reloads bring us closer to our customers ensuring quick delivery and a consistent supply of Tolko products. These reload locations carry Tolko lumber, plywood, OSB, and EWP products throughout the USA and Canada.

Visit tolko.com/divisions/reloads to view a complete list of our active reloads and contact information.

BUILD GREEN WITH TOLKO

We manufacture our products from renewable, recyclable and biodegradable resources, and our practices are guided by our Forest Management Principles and Environmental Policy. We also adhere to globally-accepted Sustainable Forest Management (SFM) and Chain of Custody (CoC) standards.

Tolko products earn the certified wood credit under LEED and Green Globes through our Sustainable Forest Management (SFM) certification, Sustainable Forestry Initiative® (SFI) which fully qualifies under the LEED standard via the LEED Alternative Compliance Path process. In addition, our panel products qualify for incremental LEED credits under the low emitting materials requirements.

SETTING THE STANDARD

Tolko RV and transport trailer products:

- ✓ Are manufactured to exacting specifications from renewable, recyclable and biodegradable forest resources
- ✓ Contain no added urea-formaldehyde resin (NAUF), a common and hazardous indoor air pollutant.
- ✓ Come with the excellent service and support customers have come to expect from Tolko.

WARNING

Drilling, sawing, sanding or machining wood products can expose you to wood dust, a substance known to the State of California to cause cancer. Avoid inhaling wood dust or use a dust mask or other safeguards for personal protection. For more information go to www.P65Warnings.ca.gov/wood.

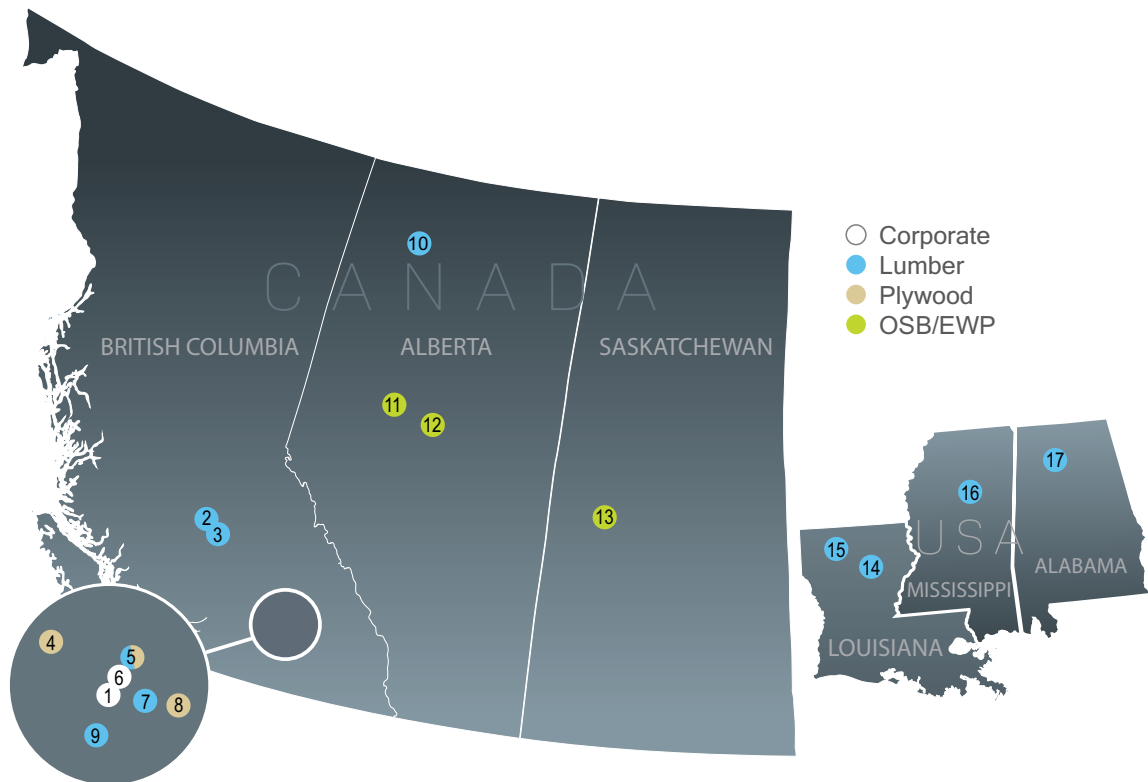

WARNING

This product can expose you to chemicals including methanol, which is known to the State of California to cause birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

TOLKO LOCATIONS

Tolko's state-of-the-art lumber, plywood, OSB, and EWP operations are located in the abundant forests of Western Canada and extend into the Southern Yellow Pine forests of the United States of America.
