

INTERNATIONAL SALES

TOLKO

Tolko is a leading manufacturer of a wide range of forest products for customers around the world. For more than 65 years, Tolko has earned a reputation of being reliable, consistent, and easy to do business with.

This family-owned company believes that with effort and focus comes the possibility of success. Over the past 60 years, Tolko has stayed true to its early beginnings and the values of the Thorlakson family.

Fundamental to our success is a committed workforce that thrives on change, building relationships, and a drive toward excellence. The industry has dramatically changed since Tolko's beginnings in 1956, but our journey remains guided by the same values and strategic business sense instilled throughout the years.

OPERATIONS

Tolko’s lumber, plywood and OSB operations are located in the abundant forests of Western Canada and extend into the Southern Yellow Pine forests of the United States of America.

Tolko’s commitment to the highest quality standards extends across all of our products. Our mills are focused on manufacturing consistent products, and our sales representatives are dedicated to providing you with customer service you can count on.

PRODUCTION FACTS

Employees	3,000
Manufacturing	17 facilities located in Canada and USA
Trees Planted	32.6 million annually
Export	16 countries worldwide

PRODUCTION

Lumber	1.33 billion board feet 2.06 million cubic metres
Plywood	427 million square feet (3/8" basis) 378 thousand cubic metres
OSB	1.80 billion square feet (3/8" basis) 1.59 million cubic metres
Wood Chips	0.70 million BDU (bone dry units)
Electricity	109 thousand megawatt hours

TOLKO IS A COMPANY THAT LIVES FOR TODAY BUT PLANS FOR OUR FUTURE!

Tolko is committed to the well-being of future generations through responsible environmental performance.

TOLKO MAKES EVERY EFFORT TO MANAGE FOREST LAND IN A PROFESSIONAL AND SUSTAINABLE MANNER. TOLKO'S CURRENT FORESTRY CERTIFICATIONS INCLUDE:

- Sustainable Forest Initiative (SFI)
- All our mills are Chain of Custody certified to the Programme for Endorsement of Forest Certification Schemes (PEFC) CoC standard.

These internationally accepted standards are independently audited to ensure conformance and transparency, and are recognized by governments and customers around the world.

This is your assurance that our products have been sourced from forests that are managed to the highest international standards while meeting the needs of local communities, and that Tolko is keeping its company promise of environmental, social and economic sustainability. **We're not just here to do business; we're here to do business responsibly.**

In addition to our sustainable management practices, Tolko actively restores our harvest areas through a combination of natural regeneration and replanting. Each year we plant approximately 35 million trees across Western Canada.

TOLKO'S 3RD PARTY CERTIFICATIONS MEET OR EXCEED INTERNATIONAL STANDARDS AND ALLOW OUR CUSTOMERS TO ACHIEVE BUILDER CREDITS FROM A BROAD RANGE OF GREEN BUILDING PROGRAMS.

ENVIRONMENTAL STANDARDS

Tolko's products meet the strictest environmental standards. Our panel products meet all national and international requirements for formaldehyde air emissions (including California, North American, European and Japanese standards). Our wood products are heat treated to attain phytosanitary certificates for importing countries.

CHAIN OF CUSTODY CERTIFICATION (COC)

The raw materials used in Tolko products can be traced from the forest to our customers through our Programme for Endorsement of Forest Certification (PEFC) Chain of Custody system. This provides assurance of the legality and sustainability of the resources used to manufacture our wood products. PEFC is a recognized Chain of Custody program under the LEED Standards.

SUSTAINABLE FOREST MANAGEMENT (SFM) CERTIFICATION

Tolko's Forest Management activities are conducted to Sustainable Forest Management standards as certified by the Sustainable Forestry Initiative (SFI). These standards are internationally endorsed by PEFC. PEFC is the world's largest forest certification system and is accepted worldwide by organizations, governments and customer procurement programs.

LOGISTICS - KEEPING MOMENTUM

Getting products to you when you need them

Our logistics team is responsible for coordinating logistics and transportation associated with the sale of our products to national and international markets. Each team member is accountable for cost-effective, timely and safe movement of product to our customers. Our logistics team works to ensure on-time shipments and to deliver excellent customer service.

Tolko has a flexible and reliable logistical network to provide high levels of service. We work closely with our mills, reload facilities, trucking companies and shipping carriers to ensure that our wood products are delivered on time all over the world.

LULU ISLAND TERMINAL

Providing solutions that work

At Tolko, we know that quality is important to our customers and that's why we store our products at Lulu Island Terminal. Established in 2012, Lulu Island Terminal is an all-inclusive warehousing and transportation solution. The facility features 19,000 square metres of indoor storage space, offering protection from BC coastal weather to ensure cargo reaches its final destination in the same optimal condition. With a flexible and reliable logistical network, Lulu Island Terminal delivers consistent shipments to local and overseas customers.

TRUE. TRUSTED. TOLKO.
