

## T-STRAND™ OSB PRODUCTS & T-PLY™ PLYWOOD PRODUCTS | RV PANELS

Strength and elegance from the core.

At Tolko, we've built our reputation on quality products, customer commitment and an unwavering integrity in all that we do. Our T-STRAND OSB and T-PLY Plywood products are designed to provide enhanced quality, performance and value, helping you increase your productivity and profitability in the highly competitive RV market.

We combined strength, moisture durability, and enhanced fastener holding to produce T-STRAND OSB products designed for the high demands of RV manufacturing.

T-STRAND OSB has superior moisture durability so RV manufacturers can be confident in the quality they provide to their customers who push their RV to the limits.

It's made with our Canadian Aspen wood fibre and bonded with the same resin used to manufacture our PS 2 certified OSB. This precise mixture of fibres and resin results in enhanced fastener holding for a durable panel that stands up to the rigorous demands of an RV.

Tolko's line of T-PLY Plywood products are preferred for the consistent cores and superior surface.

RV manufacturers prefer T-PLY plywood products for the enhanced fastener holding strength. In RV manufacturing precision is key and there is limited capacity for deviation or adjustments. With T-PLY plywood, manufacturers are confident they have done it right the first time.

The top-quality surface of T-PLY makes it ideal for painted structural components and overlaid industrial applications. When you work with superior plywood, you finish with a durable frame and flawless interiors.

## T-STRAND OSB and T-PLY Plywood

Tolko T-STRAND OSB and T-PLY Plywood provide a proven solution for RV manufacturers. Our precise manufacturing process results in consistent panels tailor made for RV manufacturing. Our products meet the demanding expectations of our customers and live up to the Tolko name.
