**TOLKO**

Tolko is a family owned company based in British Columbia, with 60 years of experience manufacturing a wide range of forest products. We have become a trusted manufacturer and a valuable business partner for customers around the world. Our mills are focused on providing consistent quality and our sales team is dedicated to creating lasting relationships with our customers.

**SOUTHERN YELLOW PINE**

Southern Yellow Pine Lumber is one of the most versatile species of lumber. Through Tolko's partnerships in the Southern USA we are pleased to offer Southern Yellow Pine dimensional lumber and specialty products to our customers.

**A FAMILY-LED PARTNERSHIP**

We’re a company built on family values, so it makes sense we would join together with folks who share the same kind of principles. These joint-ventures give our customers an even greater, higher quality selection of southern yellow pine lumber products.
Tolko and STP operate the Southeastern Timber Products mill in Mississippi, which produces dimension lumber, timbers, and specialty products. The announced investment into this mill will bring it from a 100 million-board foot facility to a 300 million-board foot facility.

Partnering with family-owned Hunt Forest Products, we’ve created LaSalle Lumber Company LLC. This union has resulted in the opening of a brand-new, 200 million-board foot facility which produces dimension lumber and features three continuous dry kilns and a planer facility.

CUSTOMER COMMITMENT
At Tolko, our commitment to quality is evident in more than our lumber products. It’s clear in our dedication to helping your business thrive. From connecting globally with our customers to providing solutions, we deliver consistent quality, superior service and unmatched integrity you can count on. It’s how we’ve built lasting relationships since we opened our doors 60 years ago.

SUSTAINABILITY
Our dedication to integrity and responsibility extends beyond our customers to the land we share. We work to balance environmental, social and economic performance through our policies, principles and certifications. This commitment to the environment and the people we serve ensures that the forests we manage today will contribute to future generations tomorrow.

LUMBER OPERATIONS
With state-of-the-art lumber operations throughout Western Canada and the United States, Tolko is equipped to produce a broad range of wood products. We’re a proven resource for the residential and light commercial construction markets, and a trusted partner for structural building component manufacturers.

BUILD GREEN WITH TOLKO
We manufacture our products from renewable, recyclable and biodegradable resources, and our practices are guided by our Forest Management Principles and Environmental Policy. We also adhere to globally-accepted Sustainable Forest Management (SFM) and Chain of Custody (CoC) standards.

Tolko products earn the certified wood credit under LEED and Green Globes through our Sustainable Forest Management (SFM) certification, Sustainable Forestry Initiative® (SFI) which fully qualifies under the LEED standard via the LEED Alternative Compliance Path process. In addition, our panel products qualify for incremental LEED credits under the low emitting materials requirements.

MAKING THE GRADE
Tolko optimization technology grades to our Tolko grade standards across all of our mills. Tolko grades per the National Lumber Grades Authority (NLGA) standards. In addition, Tolko produces proprietary premium visual structural grades for marketplace requirements.

WARNING
Drilling, sawing, sanding or machining wood products can expose you to wood dust, a substance known to the State of California to cause cancer. Avoid inhaling wood dust or use a dust mask or other safeguards for personal protection. For more information go to www.P65Warnings.ca.gov/wood.

WARNING
This product can expose you to chemicals including methanol, which is known to the State of California to cause birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.
TOLKO OPERATIONS

Tolko’s state-of-the-art lumber, plywood, OSB, and EWP operations are located in the abundant forests of Western Canada and extend into the Southern Yellow Pine forests of the United States of America.
